MEMORANDUM FOR: Director, OLL 
VIA : Chief, OLL/Liaison Divisio 
FROM : Chief, Senate Liaison
SUBJECT : Senator Durenberger's Peace Feeler

1. Senator Durenberger today put forth an unexpected peace feeler through SSCI Staff Director Bernie McMahon.
2. SSCI Chairman Durenberger invites DCI Casey to appear with him in a joint press conference on Capitol Hill after the 5 February briefing on the National Intelligence Strategy. Durenberger and McMahon believe this public gesture would give a positive signal to the American people that the Intelligence Community and Congressional oversight management are constructively working together in the public interest.
3. Possibly as importantly, the offer was made in a sincere effort to effect rapprochement on a personal level, according to McMahon, thereby defeating that portion of the media which continues to feed on rumors of a rift which works to the disadvantage of both parties.
4. This offer was made in a positive vein in an effort to achieve constructive results. Reaction feedback was requested through the same channels.
